

Omer Farooq

FRONT END DEVELOPER

Profile

I'm Omer Farooq, a front-end developer from Pakistan with a passion for creating seamless, user-friendly web experiences. I love bringing designs to life and crafting interfaces that feel intuitive and engaging

Employment History

Software Engineer, Foodbit, Remote

FEBRUARY 2021 – PRESENT

Foodbit Dashboard:

I help transform the dining experience by integrating technology into the culinary world. I work with various technologies and frameworks, including:

- **Dashboard Development:** Built a user-friendly dashboard with React and Typescript to provide real-time insights and improve business operations.
- **Online Ordering Menu:** Created an engaging online ordering menu using React and Next.js, enhancing the customer experience and increasing online sales.

WeirdCollective:

- **Architected and Developed** an AI art image generation app, providing users with a powerful tool for creating and customizing AI-generated artwork.
- **Designed and Implemented** a sophisticated image editor, enabling users to modify and enhance their AI-generated images.
- **Created a Credit-Based System** to manage image generation, allowing users to track and utilize credits for creating new artwork.
- **Integrated Stripe Payments** for secure and seamless transactions, facilitating easy purchase of credits and services.
- **Ensured a Smooth User Experience** by optimizing app performance and usability, making creative exploration intuitive and accessible.

Software Engineer, CARE, Islamabad

MAY 2020 – FEBRUARY 2020

- At Care, I contributed to building charting dashboards using Chart.js to provide clear and interactive data visualizations. These dashboards played a crucial role in decision-making processes by offering insightful visual representations of key metrics, enabling stakeholders to make informed choices quickly and efficiently.

Education

Bachelor of Science in Information Technology, Bahria University, Islamabad

JANUARY 2016 – FEBRUARY 2020
